Stella

New Series Coming on in 2023

Cool and fashionable bright colors Matching urban aesthetics
Mix and match the fashion atmosphere to attack the front line of style.
Their color confrontation and collision can express the meaning that is difficult to express

Convenient adjustment
Can be rotated to all angles

Pragmatism, ingenious details

Stepless regulation 0~30° at any angle

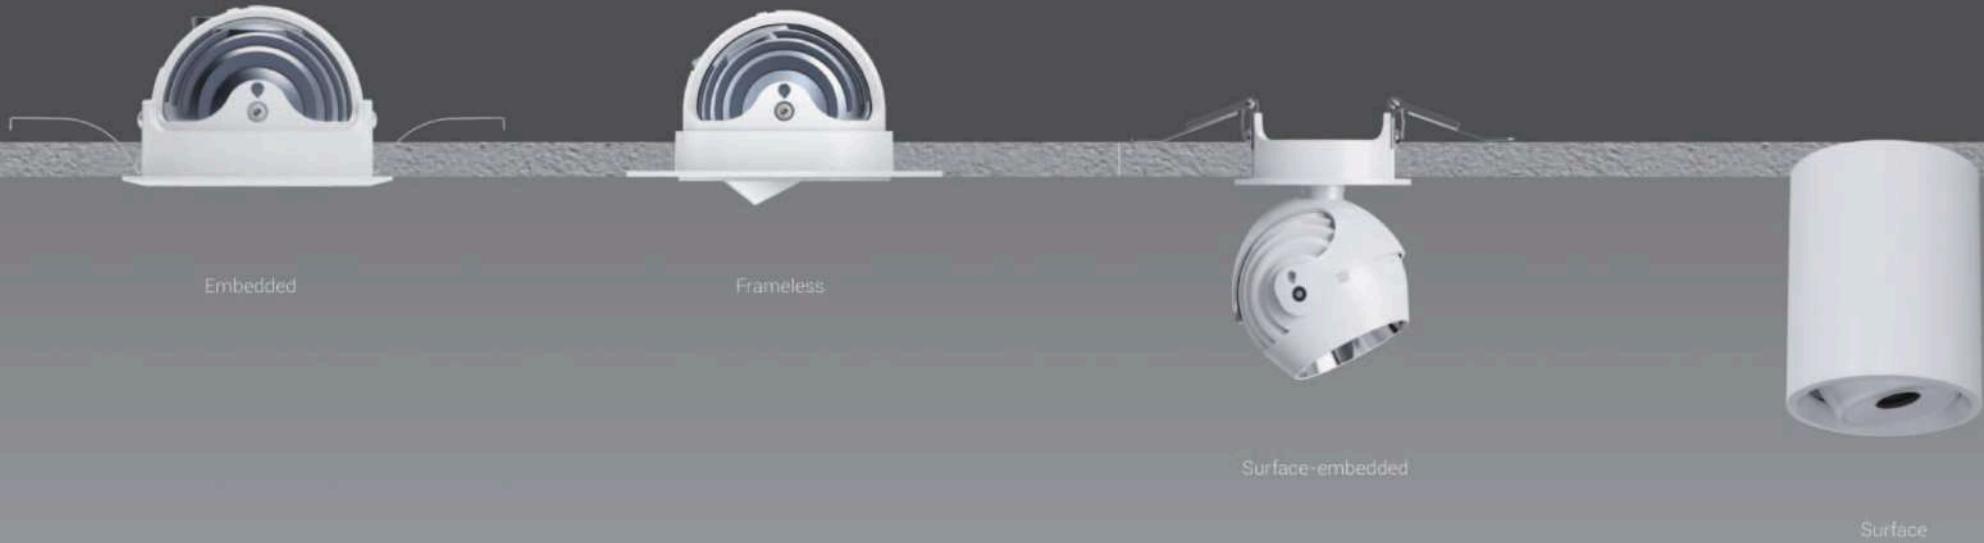

4 kinds of frame can be selected

Four kinds of frame can be selected:
round, integral trimless, square single head, square double head

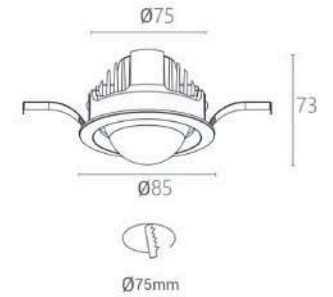

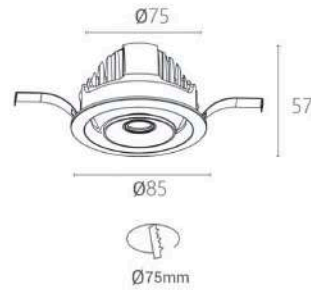

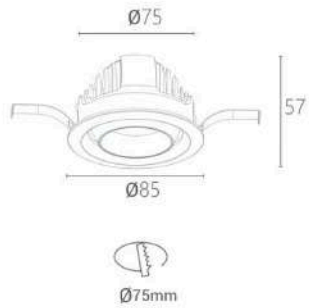

Available in 6 colors Suitable for different decoration environments

The reflector is precisely designed with electroplating (anti UV) and nano paint technology, which is suitable for different soft decoration environments

Installation Method

The installation method can be embedded, trimless, surface-embedded and surface

Excellent design

From its design proposal, to optical structure and heat dissipation structure, to product surface treatment
It embodies its uniqueness everywhere.

TIANYUE

Functional configuration applicable to multiple scenarios of full-featured product series

Large angle swing angle

Multi direction, multi angle swing angle, free choice of angle

The maximum angle is 30°

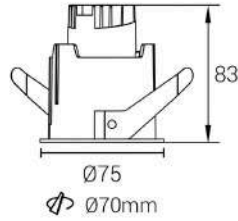

Multiple light distribution

By replacing the optical parts, the purpose of multi-scene application can be achieved

TIANYUE

Tianyue series is a variety of optical applications based on Linan series radiators, it integrates key lighting, facade lighting, indirect lighting, basic lighting, etc. Covering points, lines, surfaces and lighting optical applications can be based on different architectural styles. Freely switch different models to achieve ideal optical functions. The installation method can be embedded, frameless, surface mounted, hoisting, etc.

- Die-cast aluminium lamp body can effectively prevent corrosion and rust, make the lamp body fully heat dissipation, improve heat dissipation efficiency.
- It can be used as IP43 anti-fog and prevent fog and spray from contacting light source. It is suitable for kitchen and toilet.
- Two optical structures: fixed direct/adjustable oblique
- Equipped with an extremely narrow beam Angle, can be from different angles to accurately illuminate the subject.

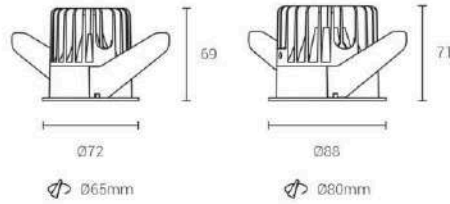

Anti-glare spotlight

The unique ultra-thin shell design of this series makes it flexible to use in the limited space of the ceiling, thus reducing the construction difficulty. In addition, luminous surface no dark area, no point of light, uniform degree of highly consistent light effect, is Simple large space to provide basic lighting preferred products

1 The maximum lamp body of 16° can adjust the Angle, which greatly facilitates the lighting needs of on-site debugging.

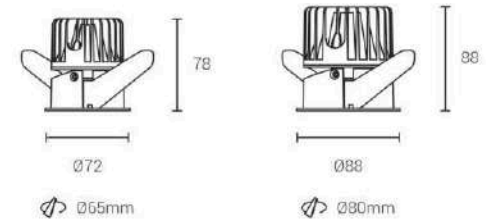

2 Can be combined with honeycomb grid, effectively prevent excess astigmatism.

3 Reflectors of different colors can be selected according to the ceiling and the overall color of the space.

Luminous Flux	600-800 lms

90° Horizontal angle

It is used for the ceiling track rail connection only

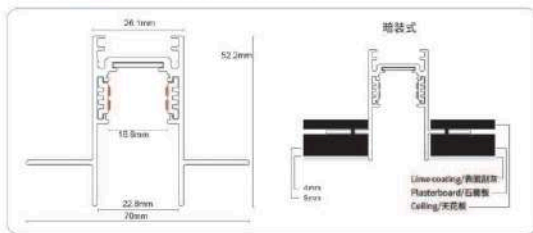

90° Vertical angle

It's used for the ceiling to wall track rail mount

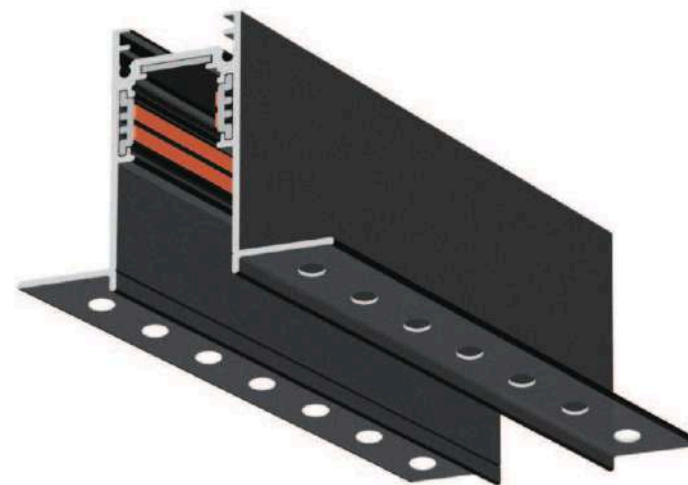

Recessed ■ BLACK

Mounting way: Recessed mount

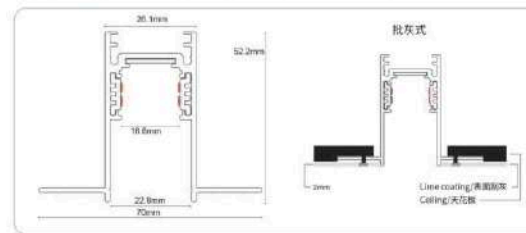

PRODUCT PARAMETERS

Model NO.	HS-26D
Track Length	100cm, 150cm, 200cm, 300cm
Package	5/Cartron/箱

Trimless ■ BLACK

Mounting Way: Trimless recessed mount

PRODUCT PARAMETERS

Model NO.	HS-26E
Track Length	100cm, 150cm, 200cm, 300cm
Package	5/Cartron/箱

90° Horizontal angle

It is used for the ceiling track rail connection only

90° Vertical angle

It's used for the ceiling to wall track rail mount

90° Horizontal angle

It is used for the ceiling track rail connection only

90° Vertical angle

It's used for the ceiling to wall track rail mount

I connector

It is used to connect two track rail together

Input connector

It is used to connect the track rail and the 48V power supply or DALI

Outer 100W

Meanwell Driver Power Supply

Outer 200W

Meanwell Driver Power Supply

Outer Put 48V power supplier transfer

Input voltage: 85-220V

Out put voltage: 48V

It is used to transfer 220V voltage to 48V

Notification

In one track rail, if total lamp watt is 100W, then choose 150W driver, increase driver power at least 30-50% than lamps' power

Soft Connector A

It is used for two track rails(shorter wire)

Soft Connector B

It is used to connect two track rails together, will be used with 90° angle.

Inner driver 100W

48V Power Supplier

Inner driver 200W

48V Power Supplier

嵌入轨道式变压器

Input voltage: 85-220V

Output Voltage:48V

It is used to transfer 220V voltage to 48V

Notification

In one track rail, if total lamp watt is 100W, then choose 150W driver, increase driver power at least 30-50% than lamps' power

Rail Connection

It is used on the back side of surface mount track rail

Hanging kits

It is used for pendant mounting track rails

Remote Control

It should be used with dimmable lamps

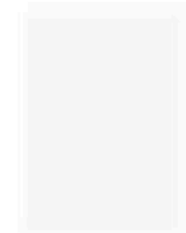

Control Board

It should be used with dimmable lamps

MT26 SERIES

Product Code: MT26-Y80
Watt: 8W
>CRI: Ra90
Voltage: 48V
Product Size: 75x75mm
Color: Black / White
Material: aluminum + plastic

CCT
